

# ANGEL CERVANTES

## WEB3 FULLSTACK DEVELOPER

 angel.muncerv@outlook.com

 (52) 662-847-2565

 Chihuahua, MX

### ABOUT ME

Product-focused fullstack engineer passionate about building performant user interfaces, developer tools, and blockchain-integrated apps. I thrive in fast-paced environments, ship fast, and iterate with real-world feedback. Always learning, always building.

### EDUCATION

B.S. in Virtual Environments and  
Digital Business Engineering  
Technological University of Chihuahua  
 Chihuahua, MX | 2021 – 2025

### CERTIFICATIONS

- Solana Development Certificate –  
Ackee Blockchain
- Web3 Development Program –  
Solana University
- JavaScript Mastery (Basic to  
Advanced) – Internal coursework  
and verified self-study
- Python Programming (Basic to  
Advanced) – Internal coursework  
and verified self-study

### TECH STACK

**Frontend:** React, Next.js, Tailwind CSS,  
TypeScript, Framer Motion

**Blockchain:** Solidity, Ethers.js, Rust, Hardhat,  
Solana (Anchor, MagicBlock)

**Backend:** Prisma, Firebase, PostgreSQL, tRPC

**Other:** GitHub, Agile, Unity, Flutter

### LANGUAGES

- Spanish ( Native )
- English ( B2 )

### AWARDS & HIGHLIGHTS

- 2nd Place – \*Etherfuse Blockchain  
Hackathon\* First edition of  
Etherfuse's blockchain hackathon.  
Built a decentralized medical record  
platform using Ethereum.
- - Top 10 – Product Hunt (Blockies  
Animate, 2025).

### LABORAL EXPERIENCE

#### Blockies Animate — Founder / Developer

April 2025 – Present | <https://animate.blockiesui.com>

Independent project focused on creating a plug-and-play animation library for React, designed to improve UX in web applications.

- Reached Top 10 on Product Hunt, with over 500 visits on launch day.
- Built reusable, customizable animation components with high performance.
- Led the redesign of documentation, integration flow, and licensing system.
- First step in the BlockiesUI ecosystem, focused on Web3 UI and DevTools.

#### Debor.ai — Fullstack Developer

April 2025 – Present | <https://www.debor.ai>

Worked on the development of a legal-tech platform designed to streamline the analysis of court hearings through AI-powered transcription and semantic search.

- Built and optimized features that enable lawyers to transcribe and analyze hearings in minutes instead of weeks.
- Developed a robust semantic search system to allow contextual queries across hours of legal video/audio content.

#### Senior Fullstack Developer — NoroTech

2025 – Present | <https://www.thenoro.com>

Joined NoroTech as a senior developer to lead the technical execution of Web3 and fintech products for clients in LATAM and the US.

- Led end-to-end development of decentralized applications and internal tooling for blockchain-based solutions.
- Designed scalable frontend architectures using Next.js, Tailwind, and TypeScript, with integrations to Ethereum and Solana ecosystems.
- Developed and audited smart contracts using Solidity and Anchor, ensuring security and on-chain reliability.
- Introduced best practices for testing, documentation, and component reuse across multiple products.

#### Team Lead / Fullstack Developer — Vrakka App

2024 – 2025 | <https://www.vrakka.app>

Led the development of a mobile application focused on habit tracking and citizen reward systems using crypto incentives.

- Designed and implemented the core architecture for a DePIN-based reward system connected to Ethereum smart contracts.
- Integrated wallet authentication and on-chain interactions to allow users to earn tokens for completing personal and civic tasks.
- Oversaw product roadmap, coordinated a small distributed team, and handled feature delivery from concept to deployment.

### PORTFOLIO
